

Knock Out Odors At Their Source!

Let's face it, homes collect odors

from many sources. From the basement to the kitchen, from the carpet to the furniture, odors can permeate the entire home. So what is the solution?

Introducing the

The SP Series has an **Ionic Purifier** that clears the air of dust and pollen around the clock. But for odors, it has a built-in **O₃ Sanitizer™** – simply close off the area to be treated, turn the dial and let the Sanitizer do its work. Without the use of fragrances, it **attacks odors at their source** and leaves the home smelling fresh and clean.

Eliminate odors at their source

Give yourself a fresher smelling home!

With **LightningAir** you will have the perfect air purifier for your home. You will love a fresh smelling environment. The attractive **LA-2SP** is made of solid wood and stainless steel that blends into any decor.

LA-2SP

Handle for portability

"The unit has surpassed our expectations. My wife suffers from allergic reactions to the presence of mold or mildew. Before we had the unit she could not even go down to the basement – now she can."

D & J Ross - Newport, RI
